WhichSandwich

Overview

WhichSandwich is a website that was designed with sandwich enthusiast: the goal is to help people keep in touch with the latest sandwich trends, while developing their creativity.

It can be a valuable tool for small business owners to gauge their market.

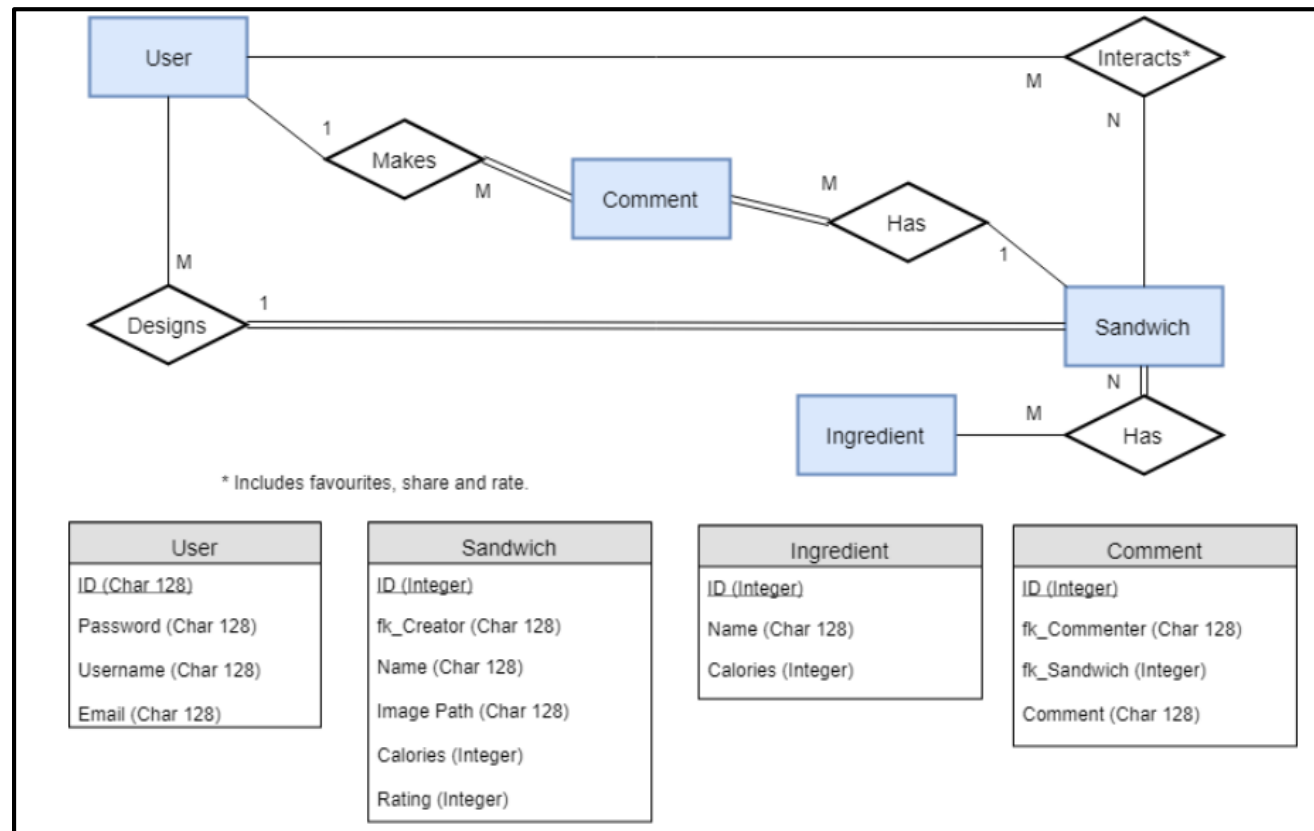

It could also come in handy to please your family and friends with awesome custom made sandwiches.

Functionalities

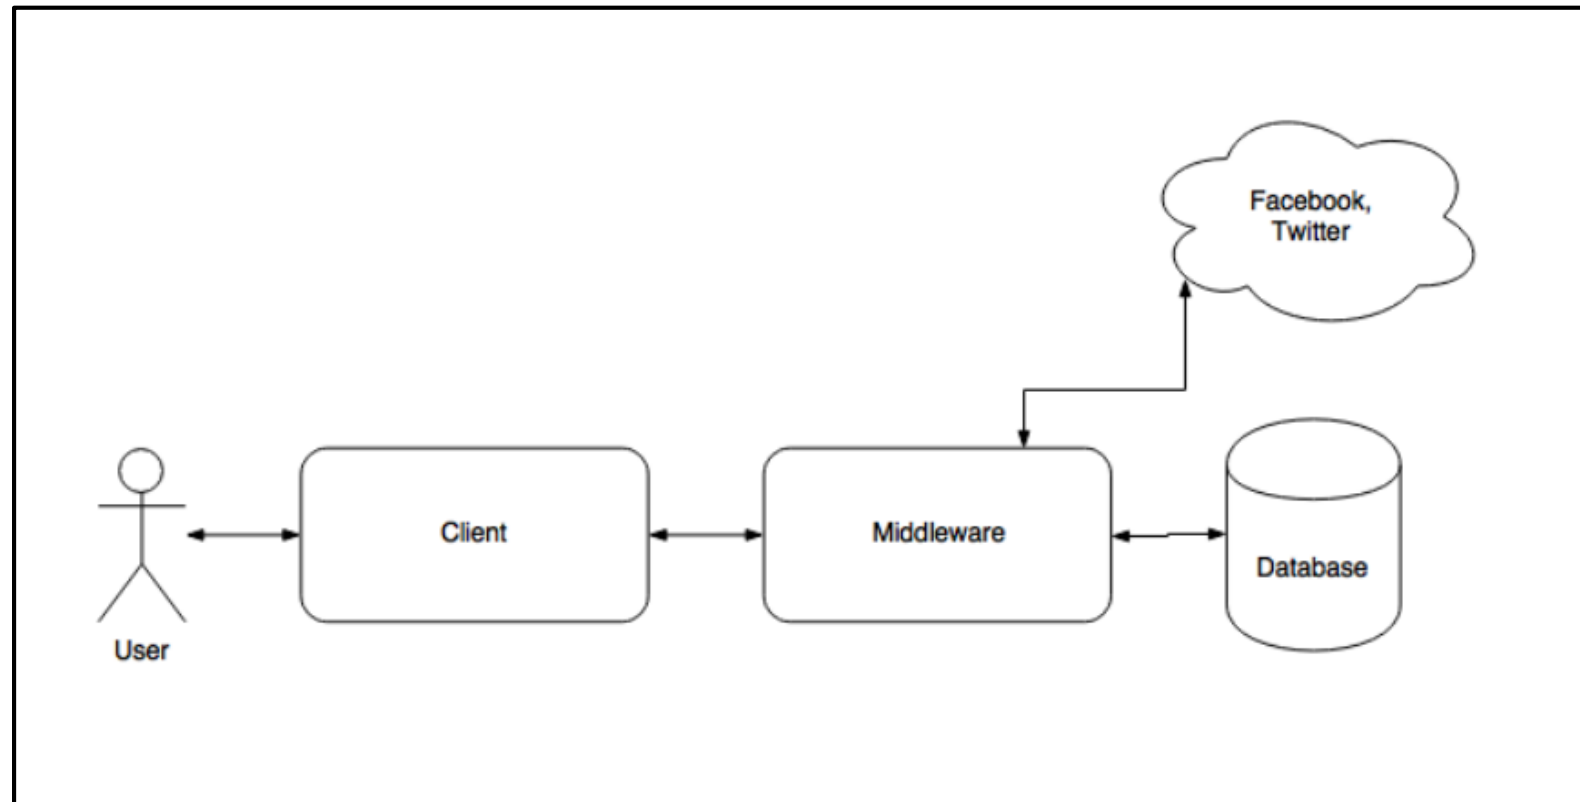

Registered users can interact with WhichSandwich's content:

- They can share, favourite, comment and rate other sandwiches created by the community.
- View how the completed sandwich should look, as well as the list of ingredients used in the making.
- Browse the latest, best and most controversial sandwiches.
- Create their own sandwiches from a wide range of ingredients and upload the finished product to Facebook or Twitter.
